Ayokiitan Akala

5149 Cumberland Hall University of Maryland, MD 20742
Phone: 202-830-8979 E-Mail: ayoakala@umd.edu
Github: https://github.com/Ayoakala

Education

University of Maryland, College Park, MD	GPA: 3.413
B.S., Computer Science	Anticipated 2019
Scholars Program: Public Leadership Living and Learning Community	Citation Anticipated May 2017

Skills

Basic: HTML, C#, JavaScript, Python, R
Proficient: C, Java, Android Development, XML
Applications: Photoshop, Microsoft Office, Auto CAD, Unity, Eclipse, Sony Vegas, Android Studio

Related Experience

Network Operation Center, University of Maryland — August 2015—Present
Student Technician
- Monitor the University's Network Spectrum of over 30,000 computers
- Attend to customer calls and troubleshoot their problem(s)
- Solve network problem(s) for customers onsite
- Create tickets for network problems and escalate them to the engineers
- Practice for CCNA certification

International Community School, Abuja, Nigeria — July 2013—September 2013
"Camp Rock" Summer Camp Supervisor
- Collaborated in a team of 3 supervisors to observe the care of children ranging in ages 5-12
- Planned and organized the recreational activities and field trips for camp participants

Research Experience

Quarknet Master Class, Johns Hopkins University, Applied Science Lab — April 2014
- Selected out of 1,000s of students to participate in a study to discern different atomic particles
- Communicated with Universities over the world to compare findings of particle saturation
- Used software from Quarknet to gather data and record findings

Affiliations

Virtual Reality Club•Member — August 2015—Present
Taught me the basics of scripting languages and went in depth with C#

Terrapin Hackers •Team Leader — September 2015—Present
- Reverse Engineering an autonomous Trauma-detecting Quadcopter
- Used logical analyzer, Arduino software, and Java experience to model

Coding Club •Member — August 2014—Present
Perfected my use of Java and introduced me to coding challenges such as BitCamp

Astronomy Club •Leader — August 2013—August 2015
Leader, 2014—2015
- Gave me the opportunity to lead fellow students with similar passions in Astronomy and Engineering
- Used multiple software's like Putty and Quarknet particle detector
- Reverse Engineered a 4 barrier particle detector

FCT Abuja School for the Blind•Computer Skills Teacher — August 2012—July 2013
Taught students who to use Microsoft Office with their impediments through hotkey management

Fedcentric Technologies, LLC •Data Science Intern for a day — March 2016
Allowed me to get a feel of working at a startup feels like at a Big Data company

Honors and Awards

- Nominated to be a Posse Scholar (An Academic Institution that provides High school students with Full Tuition scholarships to 4-year colleges)
- National Student Leadership Conference at Northwestern University Alumni (2013)
- W.E.B. DuBois Academic Achievement Award
- Accepted into Capital One's Engineering Summit out of 250 applicants based on my Android App solution, Superizer2.0, (https://github.com/Ayoakala/Superizer2.0)
- Selected to participate in the SEO EDGE Program that prepares inductees to work at prestigious companies
